

# Environmental, Health & Safety Training

**AMERISAFE** has worked with the experts at Evolved Safety to deliver environmental, health and safety training programs to help reduce accidents and injuries for their policyholders. **AMERISAFE** policyholders now have access to the streaming video program at no cost and the other training materials at a preferred price. Programs are available via online course, on-demand video streaming or DVD delivery.

## Free Streaming Video Program »

With access to over 600 training programs, streaming video is a convenient way to access training content on-demand, without having to maintain a physical DVD library. The program is provided to you as a benefit for being a valued **AMERISAFE** policy holder.

## Online Safety Training »

Online safety training programs provide flexible training delivery to meet a company's and employee's unique schedule. Courses include animations and are highly interactive to engage the learner in the training, increasing comprehension and retention. Courses are also mobile ready so they can be viewed on a user's preferred device, meeting the needs of today's diverse workforce.

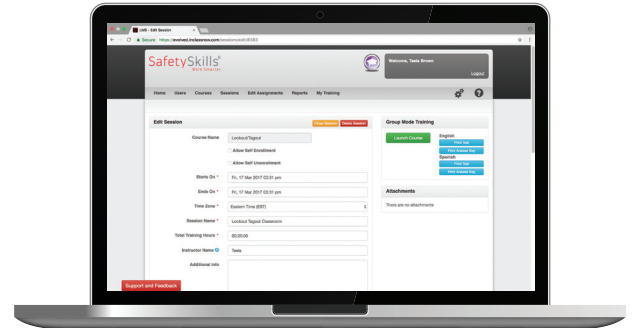

Over 340 online training courses are available. Training topics include:

- General workplace safety
- DOT Compliance Training
- Food Safety
- Forklift Operator
- Hazardous Waste Operations
- Healthcare
- NFPA 70E
- Online OSHA 10 & 30 Hour Training
- Sexual Harassment
- Ergonomics
- Lockout Tagout
- Hazard Communication
- Machine Guarding

## Learning Management System (LMS) »

The robust LMS delivers online courses to the workforce, tracking worker engagement, and offering reporting options that support accountability. It allows management of workforce training with simplicity in design and function. The LMS allows tracking and scheduling of training that measures success and is available anywhere there is an internet connection.

## DVD Purchase »

DVD programs provide an excellent way to reinforce key safety objectives and enhance classroom training. The extensive DVD library covers hundreds of OSHA, DOT and EPA training topics.
